## FROM PASTOR LARRY...

It may take us a while to process and say what this past year, 2020, was to us. I am wondering how the history books will write this one? It has had so many major events, and each was huge in and of itself, let alone pile them all together in a single year. I'm not going to list them or recall them here. Still, I know of at least six "significant" happenings of note which not only had an immediate impact but that will be determinative for decades or possibly centuries to come. There is no one to sum 2020 all up into a nice neat little package that can be grasped and put on the shelf. So, I'm moving on to 2021!

Here is a huge thank you, Lord, that we have a vaccine! I pray we have the leadership and wisdom to use it well and get it distributed in the quickest and best way possible. Many of us are guesstimating June 2021 will be the first time anything like a "back to normal" will be manifested. Until then, or whenever it happens, we will continue to carry on and worship here and LIVE online. We will continue to meet via ZOOM, and utilize other modes of communication and connection (like this Unifier) to stay in touch, keep our eyes focused upon our God.

For your faithfulness and long-suffering, I praise our God and continue to count each of you in my prayers. I hope you are keeping me in yours as well. 2021 here we come! With faith, love, and resilient hope, I send good thoughts to you.

In Him Who Is With Us Always,

+Pastor Larry

faith love hope

MLK DAY—January 18<sup>th</sup>

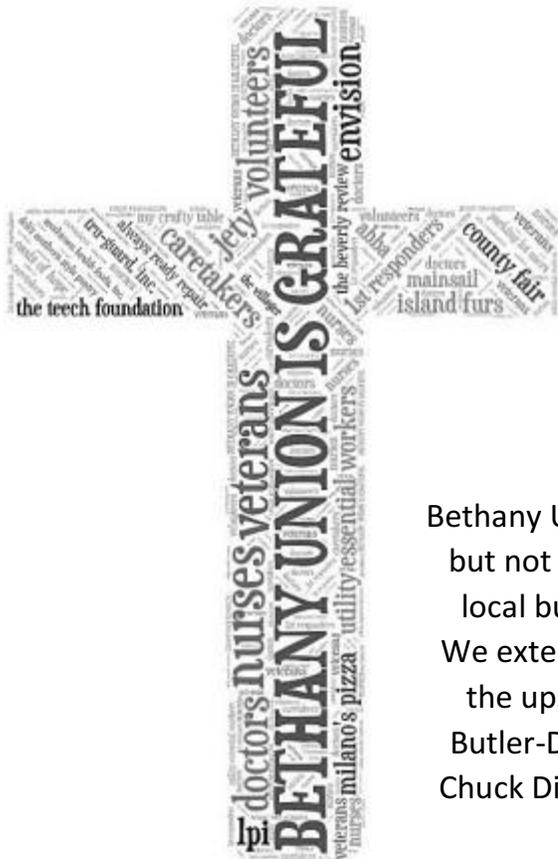

## A CHRISTMAS STORY

In early December, when our church finances were looking pretty bleak, which they usually do at this time of year, Bethany Union Church received a blessing. On December 2<sup>nd</sup>, we received an envelope in the mail with a check for a very generous amount. The Donor was not familiar to anyone in the office, so we searched and found his address and phone number in Google. Pastor Larry called to thank him for his donation.

During that call, Pastor Larry learned much more and shared his story in the December 6<sup>th</sup> Sermon. And now, as Paul Harvey used to say... 'this is the rest of the story.' As World War II was winding down in 1945,

our Donor was living in an orphanage; he hoped that he might be able to leave his war-torn Germany one day. Time passed, and as he grew older, his time in the orphanage came to an end, and he began exploring various opportunities he might use to see his dream come true. Our Donor worked with Church World Services, who in the early 1950s had a relationship with Bethany Union Church. Together Church World Service, Bethany Union Church, with a few church members of the time, sponsored our Donor's immigration to the United States. That happened in about 1956. Our Donor remembered the kindness and life-changing support shown to him by Bethany Union and recently felt moved to thank us, hence his gift. I might add that we actually received his check on "Giving Tuesday." What a true blessing at Christmas!

## COMMUNITY NOTES:

### Help Feed the Hungry and Donate

Hunger is real in Beverly, Morgan Park, and Mt. Greenwood. It may be invisible because we see beautiful historic homes, strong businesses and organizations, and a sense of comfort and wealth. But it is here, and with the COVID-19 pandemic, it is on the rise.

Today, Maple Morgan Park Food Pantry is even more vital for Chicagoans and others in high need areas. For \$20, you can provide two weeks' worth of groceries for a needy family.

### THE FREE STORE

The Free Store hosted by the Morgan Park Presbyterian Church needs your help. I have ordered some heaters during our distribution, so the predicted cold weather should be a smaller factor. Though there will be heat, please do bundle up.

We are noticing that there is a rise in our numbers, which I believe is a reflection of our current economic situation. I am happy that we are here to help our neighbors, yet sad at the same time. Along with many other organizations, we are headed into no longer having food provided for our distribution. The USDA Farmers to Families program is wrapping up at the end of the year, in 2 weeks. We have not heard anything as of yet regarding the resumption of the program. We are moving forward, as if the program will be continued.

We hope you can join us in helping our neighbors through these rough times. Trust me when I say you will get a lot from experience.

We wish you and your family a happy and healthy holiday season.

### FYI from Citizens' Climate Lobby

Rick Knight (from the Chicago area) is Research Coordinator for CCL

Today at the national CCL Zoom meeting he presented a study of the EFFECT ON HOUSEHOLDS of our TAX ON CARBON policy.

HR 763 collection of carbon fees at \$20 per ton of fossil fuel would result in approximately \$400 per household per year if 763 had passed.

Researcher Kevin Ummel did the study between November of 2019 and March of 2020. It found that the annual increased cost of energy caused by the tax would be \$273 for the bottom quartile of incomes, \$326 for the 2<sup>nd</sup> quartile and \$921 for the top quartile. The result is that 61% of households would get more than their increased costs and the wealthiest only pay a one-half percent penalty.

If the Biden administration passes a carbon tax bill like that in the EU and Canada, the fee will be more like \$40/ton in the first year. As Yogi Berra said, "It is hard to make predictions, especially about the future."
