## Fr. Michael's Musings

It's hard to imagine that last Wednesday was the solstice and the first day of Summer.

Summer always seems to begin way before the season itself actually begins.

Yet, now we are actually in the season and that is providential because it corresponds with the arrival of green on our first Ordinary Time weekend following the Paschal Season.

Green is the color and gift of growth, that growth that happens outside our church in fields and gardens and lawns, and the growth that happens inside the church will the renewal of vigor and faith and love.

For growth to happen, things need to occur. We plant, we water, we nourish, we weed, we care. These are the things needed in our hearts as well.

Consciously plant good gifts in your heart, or weeds might grow. Water your heart with baptismal faith; nourish yourself in prayer and the Eucharist; weed your soul of negativity, judgment and cynicism; care for yourself with walks and laughter and time relaxing.

It's summer, and it's green, inside and out. Enjoy it, for it passes much too quickly.

And watch out for the skeeters!  
It's nice to be home with you all again!

*Just a  
Thought...*

The days are getting shorter!
