## Epiphany

This year, in the United States the celebration of the Epiphany falls on January 8, but the traditional date for the Epiphany is January 6. The date we know as January 6 was established as the solstice in Egypt in 1996 BC, but the Egyptian calendar lost a full day every 128 years. Twenty centuries later the actual solstice had migrated to December 25. People still kept January 6 for the solstice celebration, but December 25, matching nicely with the Roman pagan feast of the Unconquered Sun, launched an extended solstice holiday. By the time of the early church, the whole period of twelve days was celebrated just about everywhere.

Christians began to celebrate Christ as the true light of the world in four themes: the Nativity, the manifestation to the Gentiles, the baptism of the Lord, and the wedding feast at Cana. That was entirely too much for one day to handle. A twelve-day season was ready to be adapted, so Christians borrowed from the pagan calendar for their own season of light. Thus early Christian celebrations of the Christmas season extended from one date for the solstice, December 25, to the older date, January 6. The darkest time in the Northern Hemisphere could now be filled with the Christian observance of the arrival of the Light of the World.

## Safeguard the Children

### Start the New Year with your kids' safety in mind

During the start of a new year, many resolve to do things differently: pray more, live better and cherish God's gifts. It's also a great time to re-commit to putting the safety and well-being of children first. Look to Mary, the Mother of God, for examples. Model honesty, gratitude, and love to your children, and take steps to teach them about safety in the home and the world. This resolution to promote safety and happiness can make your new year the best one yet.
