**THE EYE OF THE BEHOLDER**

Saint Matthew's Gospel reveals that Jesus' face "shone like the sun" during his transfiguration. The evangelist is using a figure of speech, of course, but we can imagine what beholding the Transfiguration might have been like for Peter, James, and John. The brightness of Jesus' face is compared to the sun. Earth is about ninety-three million miles distant from the sun, yet if we look directly at it, we suffer retinal burns, permanent eye damage, or severe vision loss. The disciples were so close to the Lord during his transfiguration that he could touch them. What is it like to behold the brightness of Jesus? The disciples were terrified. Perhaps looking at Jesus in his glory feels as dangerous as staring at a solar eclipse. Sure enough, the disciples hid their eyes, falling flat on their faces.

**The offertory collection is the lifeline of our parish. Your help is needed to keep it in a healthy state. Consider increasing your level of giving to at least 1.5% of your income.**

**GOD'S MERCY**

Although the disciples' experience on the mountain was frightening, our merciful Lord does not want fear to overshadow the miracle they witnessed. Jesus touched them, saying, "Rise, and do not be afraid." God's words from the cloud overhead were similarly encouraging: "This is my beloved Son, with whom I am well pleased; listen to him." God lovingly reassures us, confirming Jesus' identity as the Son of Man and inviting us to pay attention to the One who comes to save us. Saint Peter, an eyewitness to the event, declares that his testimony is "altogether reliable." We can depend on his word. Saint Peter hopes his words act like a "lamp shining in a dark place, until the day dawns and the morning star rises in your hearts." Thanks be to God, we can rely on the life-changing experiences of others to help transform our own lives. We may not ever have intimidating mountaintop revelations like Peter, James, and John, so we listen to them as witnesses of God's majesty.

La Transfiguración del Señor

## EL OJO DEL VIGILANTE

El Evangelio de san Mateo revela que el rostro de Jesús "brillaba como el sol" durante su transfiguración. El evangelista está usando una figura de discurso, desde luego, pero podemos imaginar lo que fue observar la Transfiguración pudo haber sido para Pedro, Santiago y Juan. La brillante del rostro de Jesús se compara con la del sol. El planeta Tierra está a una distancia del sol de noventa y tres millones de millas, aun así, si miramos al sol directamente sufrimos quemaduras en nuestras retinas, o un daño permanente en los ojos o pérdida severa de la vista. Los discípulos estaban tan cerca a Jesús durante la Transfiguración que él podía tocarlos. ¿Cómo es ser testigo de la brillantes de Jesús? Los discípulos estaban atemorizados. Quizá ver a Jesús en su gloria se percibe como peligroso como cuando empieza un eclipse solar. Sin lugar a dudas, los discípulos taparon sus ojos, cayendo a tierra cubriéndose sus caras.
