The celebration of this World Food Day brings us together to commemorate October 16, in 1945, when governments instituted the Food and Agriculture Organization with the intention of eliminating world hunger through the development of the agricultural sector. It was a period of grave food insecurity and major population displacements, with millions of people seeking a place to survive the extreme poverty and adversity caused by the war. The landscape of international relations

shows a growing capacity for responding to the expectations of the human family, also with the contribution of science and technology which, by studying the problems, propose appropriate solutions. Yet even these new developments do not succeed in eliminating the exclusion of much of the world's population: how many victims of malnutrition, wars, climate change are there? How many people lack work and essential items, and are forced to leave their land, exposing themselves to many and terrible forms of exploitation? Enhancing technology at the service of development is certainly one path to take, provided it leads to concrete actions to reduce the number of those going hungry or to govern the phenomenon of forced migration. *Address of Pope Francis on World Food Day, October 16, 2017*

WE NEED YOU TO MAKE OUR NEW PHOTO DIRECTORY COMPLETE

RESERVE YOUR FAMILY PHOTO SESSION

It's time for our Risen Christ family to update our primary tool to connect with each other with a photo directory. You can choose to be in the directory with or without your picture. If

you want you and your family's picture in the directory, you will receive a free 8 x 10 and photo directory. In order to receive a photo directory you must participate in the photo session.

1. **IN THE NARTHEX, AFTER EACH WEEKEND MASS IN JANUARY:**
Volunteers will be available to assist you in the narthex.
2. **FROM HOME, ONLINE:** pick up instructions for "how to" on the table in the narthex.

Whichever method you choose, we need you to stop by the table and help us assure your information we have in the office is accurate. At that time you can decide how much information you want in the directory. Please remember it's our tool to keep connected.

Volunteers needed to help with registrations for photo appointments after each Mass in January.

Bernard Prusak, professor at Villanova University, wrote The Church Unfinished. The title emphasizes that, throughout its journey through the centuries, the Church has undergone one change after another; "shaped...by human decisions made in the Spirit." This is actually a comfort. Otherwise we might think turbulent times are unprecedented.
